### Statement of Unintentional Abandonment

I filed a PCT stage II demand for the PCT application number PCT/US00/350048 on July 27, 2001 by express mail for the application entitled: "System and Method for Providing Temporal Dosing" for which we intended to soon file a continuing application in the US to enter the national stage.

On November 1, 2001 I received notice that our PCT Stage II demand was not entered as it was received late, on July 27, 2001.

On checking my file, I found that I had calculated the due date of the PCT demand as August 22, 2001, and so I had thought my demand had been filed a few weeks prior to the due date. Unfortunately, we did not receive the notice until the first which was beyond the normal twenty month pendency. The mistake was unintentional and I respectfully request revival of my international application for continuity purposes, and herein have included a continuation application of the filed international application.
